

Greenville County Low Impact Development Roundtable

Meeting Notes

February 20, 2007

Greenville County Square, Training Room C

Our February meeting focused on revising the LID packages drafted by Upstate Forever. We made a number of revisions to the package documents based on comments from the roundtable representatives (see revised pdf document).

There are a few key numbers that Upstate Forever lacks for the packages to be complete - many of these are noted with XXX in the document. We will contact a number of representatives in the coming weeks to further improve the packages and complete some of the missing information. In the meantime, please do not hesitate to us with any questions, comments, or suggestions about the proposed LID packages.
