

# AGENDA

## June 16 Watershed Workshop “Land Use and Water Quality”

- 8:00 AM**    **Gather at Chamber of Commerce and depart**
- 8:45 AM**    **Walker Farm, Middle Saluda River**  
*Challenges and opportunities for preventing erosion and pesticide contamination in agricultural settings*
- 9:45 AM**    **Montebello development, Piney Mountain area**  
*Role of phased development in preventing erosion in high-density residential projects*
- 10:45 AM**   **Lowe’s Store, Poinsett Highway**  
*Importance of community involvement in mitigating water quality impacts of big commercial projects*
- 11:15 AM**   **Cone Mills site, northwest Greenville**  
*History of industrial contamination in Greenville’s “northwest crescent,” and impacts of contaminants on the Reedy River*
- 11:30 AM**   *Upper Reedy River site* **Presentation of research results on the impacts of land use change on rivers and streams**
- 12:00 PM**   **Liberty Bridge, downtown Greenville**  
*How Greenville came back to the Reedy – and what needs to happen if the river is to live up to the expectations the community now has for it*
- 12:15 PM**   **Lunch at Falls Cottage, downtown Greenville**  
*Presentation on research that compares the impact of development a stream in a nearby area undergoing development with a stream that is not*
- 1:30 PM**    **Park Street condo development, North Main area, Greenville**  
*Innovative strategies for managing sediment and stormwater on “impossible” sites (in this case, a high-intensity development on a small streamside lot)*
- 2:30 PM**    **Lake Conestee, southern Greenville County**  
*Impacts to Conestee of a century of upstream development and industry, and critical role of dam in containing the damage*
- 4:00 PM**    **Logging site, lower Reedy River**  
*Strategies for minimizing impacts to streams and water quality during logging*
- 5:00 PM**    **Arrive Chamber of Commerce**
